OnTime 360™

Manage with Speed

OnTime Management Suite

Managing the details so you can serve your customer.

Manage Employees & Subcontractors

- Track employee and subcontractor hours.
- View which users are online at any given time.
- Utilize the unique payment calculator which allows for pay rates to be set-up in several ways and will automatically calculate wages.

Serve Your Customers

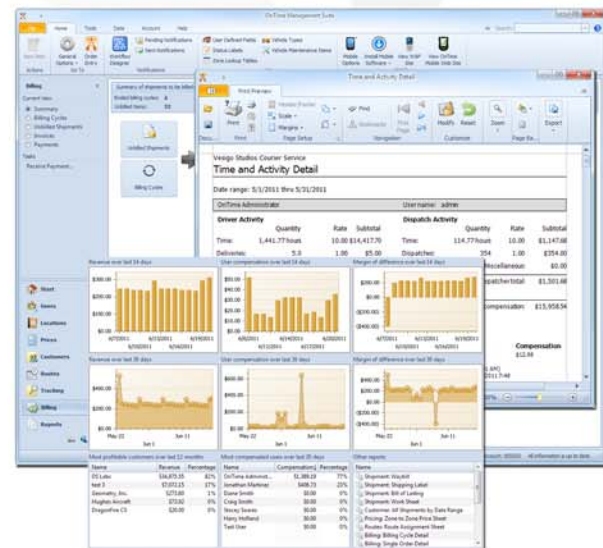

- Set flexible and customized pricing for each customer. Utilize zones, price sets and price modifiers in the system to consistently tabulate accurate rates.
- Gather all order information and generate a detailed report to facilitate customer billing.
- Set-up instant notification by fax or email to go out to customers automatically.

Track Your Vehicles

- Automatically track miles/kilometers by individual drivers.
- Ensure that the driver's vehicle matches the requirement of a shipment.
- Automatically schedule routine vehicle maintenance.

Facilitate and Streamline Dispatching

- Utilize routes to automatically schedule reoccurring orders and enable the dispatcher to track the location of drivers for on demand pick-ups.
- Use the destinations feature to quickly send packages to the same location while ensuring accurate pricing.

Dispatch with Precision

OnTime Dispatch

Streamlines dispatching while it helps you effectively communicate with drivers and customers.

Speed Up Order Entry

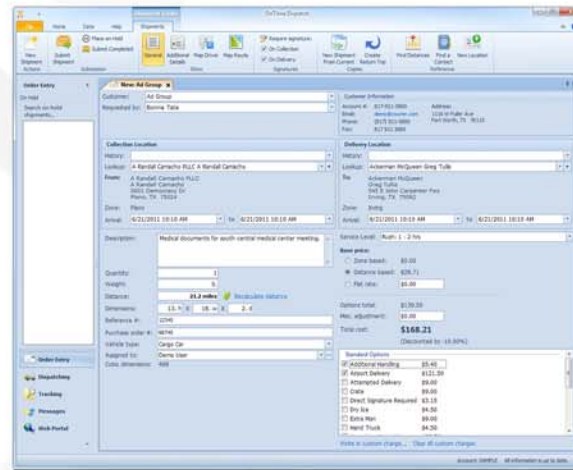

- Quickly search for customers and retrieve a history of destinations.
- Locate the most appropriate driver with the right vehicle.
- Instantly calculate pricing while still allowing for modifications.
- Calculate distance between locations automatically.

Enhance Your Tracking Capability

- View the details of any order in the system with the ability to perform advanced searches and filter results that meet a specific criteria.
- View signatures captured at delivery time.
- Easily reassign or cancel an order.

Improve Communication with Drivers and Customers

- Send orders and text messages to driver's mobile device and be notified when they've been received by the driver.
- Utilize the driver's constant updates to provide customers with automatic notification by email or fax.

Affordable, Efficient, Reliable

- Take advantage of a flexible pricing structure with a low entry price. The monthly hosting fee adjusts to the number of drivers and dispatchers you use.
- Utilize the internet for real-time access to the latest information entered in the system.
- Reduce the learning curve with a system that is easy to learn and user-friendly for all employees.
- Be confident with the highly reliable, secure environment provided by the Microsoft .Net Framework.

Deliver with Confidence

OnTime Mobile

Enhancing your company's image and customer service in the field.

Benefit From Flexible Technology

- Communicate in real-time with the system via thousands of commonly available mobile devices including BlackBerry, iPhone, Android, and Windows Mobile/Phone.
- Tap into broad compatibility and support with whichever mobile device you're currently utilizing.

Improve Communication with Your Dispatcher

- Instant access to assigned orders and messages.
- Ability to review and accept unassigned orders.
- Quickly and easily keep your dispatcher notified of the status of each order.

Enhance Your Customer Service

- Access and search for customer information.
- Capture and digitally store customer signatures with most popular smartphones.

Web Site Tools for Your Customer

- Provide a self-service web site for your customers that is fully customized to match your company's current site.
- Give your customers the ability to sign in and enter orders, review order history, and track their orders.

Accessible Technical Support & Community Access

- Easily access the knowledge base, "How To" articles, written and video tutorials.
- Keep up-to-date with community forums and the OnTime development team blog.
